

NAICS Industry Object:

This object has two attributes:

- sub-ind: A list of sub industry objects.
- data: A pandas dataframes Object.

Sub-ind:

Industry object that has the NAICS code of original industry as a prefix of its NAICS code.

These are "sub-industries"

Only includes immediate sub-industries, not sub-industries of the sub-industries.

~~NAICS~~

Pandas dataframes dictionary: Pd-dfs

- Just a dictionary of Pandas dataframes with functions for appending to it readily.
